

## Pre-Lab Course Work

The following courses have online course requirements separate from the hands-on lab:

- Extracapsular Stifle Stabilization Wet Lab: 4 modules=4 CE hours\*
  - August 17, and September 22, 2024
- Patellar Luxation Correction Wet Lab: 4 modules=4 CE hours\*
  - August 17, and September 22, 2024
- Tibial Plateau-Leveling Osteotomy Wet Lab: 5 modules=5 CE hours\*
  - April 6, June 8, July 27, September 21, and November 9, 2024

## Online Learning

\*Each module is approved for one CE hour in jurisdictions recognizing RACE approval.

\*Each module consists of a 50-minute lecture and a 5-question quiz that is **due prior to the start of hands-on lab.**

\* Securos University courses are housed at VetBloom.com.

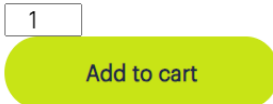

\*Registered attendees will receive a link to their courses and a code to access the content for free on the VetBloom website **30 days before the lab.** Attendees registering within one month of the lab will receive their email within 24 hours of registering.
